

INTERNATIONAL ADVANCED SCHOOL IN AGRICULTURAL METEOROLOGY

SECOND EDITION

AGRICULTURAL METEOROLOGY FOR A SUSTAINABLE WATER MANAGEMENT IN AGROECOSYSTEMS

Bologna, 5 - 9 September 2022

Agricultural Meteorology is a support to strengthen the agricultural water sector through new strategies, techniques and measures, especially under the impact of climate change. The school aims to build up knowledge about the use of integrated tools and advanced technologies for a sustainable water management in agroecosystems.
