

EUFRIN WORKSHOP ON INNOVATIVE & SUSTAINABLE ORCHARD MANAGEMENT

BOLOGNA 14-16 September 2021

Joint Meeting of the EUFRIN Working Groups:
Decision Support Platform
Sustainable Fruit Production to minimize residues
Water Relations and Irrigation

A Third Mission event of the S3O (www.s3o.it) Project

Dear EUFRIN members, Dear colleagues

Please find here the final program for our EUFRIN joint meeting in Bologna.

Tuesday 14th September afternoon : joint meeting. *Start at 13:30*
Wednesday 15th September morning and afternoon : joint meeting and field visit. *End at 18:30*

On **Thursday 16th September** we will have our specific EUFRIN Working groups meeting (DSS, residues, Water). *The program for this day will be communicated separately.*

To organise your participation (physically or on-line) for the three days, please fill in the registration form **until the 1st September**. <https://forms.office.com/r/H7q7yFeCiD>

Some information for your stay :

- Two hotels at walking distance to UNIBO :
 - Express by Holiday Inn (Via del Commercio associato 3, 40127 Bologna, Phone: +39 051 633 4588);
 - Hotel Cosmopolitan (Via del Commercio Associato, 9, 40127 Bologna, Phone: +39 051 692 6403).
- We will have a catering service that will accept cash or cards on the spot, for each coffee break or lunch, during the workshop. The dinners will be held in one of the restaurants close to the meeting.
- Unibo will provide the transportation to the experiment farm on the 15th September and some of you could may be take their cars too.

Instruction for the presentations :

Please prepare a **max. 15 minutes** talk so we can have 15 minutes discussion per presentation and send it to luigi.manfrini@unibo.it so we can organise the different session before the meeting.

Kind regards and see you in a month.

The organising committee,

Dany Bylemans, chairman WG Decision Support Platforms

Luca Corelli-Grapadelli, Local organiser University Bologna

Luigi Manfrini, Local organiser University Bologna

Brunella Morandi, chairman WG Water relations and Irrigation

Franziska Zavagli, chairman WG Sustainable Fruit Production to minimize residues
