**4 May 2022, from 9:30 a.m. to 6:00 p.m.**  
**MACFRUT 2022, RIMINI - EXPO CENTRE - SALA NERI**

The world's leading cherry tree experts from the USA, Chile, Europe, and Italy will get together to address crucial issues in cherry tree growing.

Topics will range from where the **global cherry market** is heading to the **economic sustainability** of new cherry orchards, and from **biotechnology** applied to **varietal innovation** to cutting-edge breeding techniques.

The Symposium will then continue with other key themes such as the **precision management** of cherry orchards, covering systems, **plant protection** and **post-harvesting**.

Presentations will alternate with round table discussions, with a full day programme of events that includes detailed discussions and networking opportunities among leading experts in the field. The International Symposium will be open to all players in the global cherry industry.

*Number of places available: 300*

*The Symposium will be in English with simultaneous translation into Italian.*

*It is possible to participate remotely, prior registration.*
