

FESTIVAL OF TOOLS

WEBINAR - 4TH OF MAY 2022 – 1:30-3:30 P.M. UTC

WEBINAR LANGUAGE: ENGLISH

BIO-DISTRICT: the methodology for the sustainable management of the territories, based on the Agroecology best practices and the organic farming principles of Health, Ecology, Fairness, and Care.

***The webinar will be introduced by
IN.N.E.R. – International Network of Eco Regions
Salvatore Basile – Cesare Zanasi***

The first BIO-DISTRICT was developed in Italy more than 18 years ago. The methodology is currently used in 5 continents to shift towards a real local, sustainable and healthy food system. In 2014 the International Network of Eco Regions (IN.N.E.R.) was established and a Tool Kit was developed. In 2020 the Global Alliance for the Organic Districts was created and the Global Guidelines were developed.

The webinar will show:

- **Bio-districts: definition and structure**
- **Their relevance within the international sustainable development policies**
- **The tool kit for the Bio-Districts creation and management:**
 - **How to create a Bio-district**
 - **Bio-district governance**
 - **Bio-district management: Monitoring tool/strategies definition**
- **A concrete application in the case of the Cilento Bio-District – Italy.**
