AND FOOD SCIENCES

National Research Council of Italy
Institute of Atmospheric Sciences
and Climate

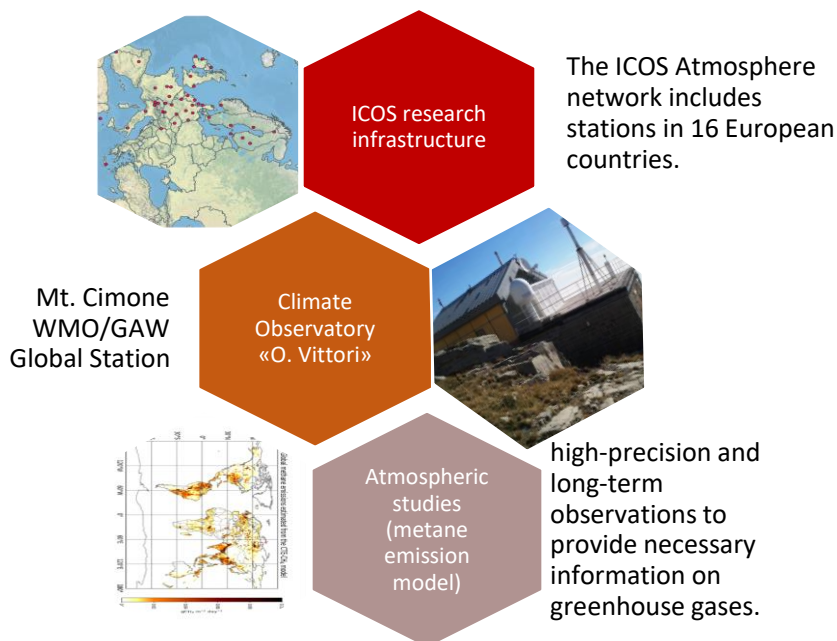

The Trans-National Access provided within "**High Mountain Ecosystems by soil survey and GIS-based map**" **Summer School** is part of a project that is supported by the European Commission under the Horizon 2020 – Research and Innovation Framework Programme, H2020-INFRAIA-2020-1, Grant Agreement number: 101008004.

ATMO ACCESS
Access to Atmospheric Research Facilities

Promote the Web seminar: "**International frameworks of in-situ atmospheric observations**" by **Paolo Cristofanelli (ISAC-CNR) (September 4, at 11-13)**

"The web seminar introduces the main global programme for observing the composition of the atmosphere through in-situ observations (WMO/GAW) and two European research infrastructures (ICOS, [Atmosphere stations | ICOS \(icos-cp.eu\)](#) and ACTRIS, [About | ACTRIS](#)) for studying the atmosphere. We will provide practical guidance on where and how to obtain the data collected in these contexts."
