submissions:

**31 December 2021**

### Message from the Guest Editors

In this Special Issue, we are inviting contributions in which green infrastructures are used as a sustainable solution in both urban and rural contexts, supporting a transition to sustainable development models, from environmental, economic or social points of view. Although green infrastructure is already relatively well established in climate adaptation strategies, further contributions focusing on the link between green infrastructure and integrated landscape planning, long-term investments, and urban and rural planning and sustainability in decision making are strongly encouraged. Experimental tests, monitoring evidence, frameworks, examples of good green infrastructure design for climate change adaptation and mitigation, and viewpoints but also numerical analyses in the study, development, and application of green infrastructures, in addition to their environmental impact quantification, will be considered.

### Keywords

- sustainable development
- resilient infrastructure
- urban and rural planning
- sustainability assessment
- sustainability indicators

an Open Access Journal by MDPI

## Editor-in-Chief

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer-reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Author Benefits

**Open Access:**—free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High visibility:** indexed by the [Science Citation Index Expanded](#) and [Social Sciences Citation Index](#) (Web of Science), as well as [Scopus](#) and [other databases](#).

**Rapid Publication:** manuscripts are peer-reviewed and a first decision provided to authors approximately 14.7 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the second half of 2020).
